# *"Everything for Health..."*

We believe that contributing to animal health goes far beyond manufacturing, but a long-term journey shaped by **knowledge, responsibility, ethical values,** and **respect** for both the sector and humanity.

Building on our deep-rooted industry experience dating back to 1986, we have transformed this expertise into a strong corporate structure under MBV İlaç since 2012, backed by **100% domestic capital** and a robust, high-quality manufacturing infrastructure. With our extensive sales network across Türkiye and a vision that extends to international markets, we provide reliable solutions in **veterinary pharmaceuticals, feed additives,** and **nutritional supplements.**

We carefully consider the needs of veterinarians, breeders, and our business partners; by combining scientific knowledge with field realities, we develop **effective, efficient, sustainable** products that comply with **national** and **international** standards. From raw material selection to the delivery of the final product to the field, we operate through **traceable, auditable,** and **continuously** improving **quality systems.** Our production approach, which prioritizes quality at every stage, our uncompromising commitment to **integrity,** and our **partnership-driven** mindset position us strongly within the industry. By integrating feedback from the field into our **R&D** and manufacturing processes, we continuously develop solutions aligned with scientific advancements and innovation.

For us, success is measured not only by the quality of the products we produce, but also by the trust we build in the field. In every step we take today, we consider animal health, **social benefit,** and **environmental** sustainability together, working with determination to become a **brand that adds value to the future.**

**Our Vision:**
To strengthen our solid presence in Türkiye and expand into **global** markets, becoming one of the most reliable representatives of the Turkish veterinary pharmaceuticals, feed additives, and nutritional supplements sector worldwide in the years ahead.

***Each product presented in this catalogue has been shaped by the strength we draw from the field, guided by science, and developed within a corporate culture founded on trust.***
